## FX Program

Student: **XXXX**

Age: 16 years old

Residential location: XXXX

I live in a family of 4, with a younger sister and two parents. My sister Amy and I have a very close relationship as we live in a very remote area with not many others our age. My parents and I are also very close. My dad works in Western Australia, and my mum is the community nurse. We are all well known within our community. I am 16 years old, and lived in a remote area, I have grown up with riding horses, quads, paddock bashes, bikes etc.

I only have one hobby, and that is horse riding. I have been riding and competing my whole life and grown up with them. I've worked with many different equestrian areas and many different horses. My main interests would be animals, sport and music. Because of the remote area I live in, I run everywhere and get a lot of exercise. I'm always outside doing something, either with helping people or working around my property with the animals or horse riding.

I hope to gain in this experience some good management skills in how to run a large property/farm. It would be great to learn some different techniques with handling any animal and working in different environments, with different people.

### Contact details

Parent/Guardian: XXXX

Home phone: (02) XXXX

Mobile: 04XXXXXXX

Allergies: No

Medical Concerns your host family should be aware of: No

Medication: Panadol ok, no prescription medication
